Professional Summary

Computer Science Engineering graduate with hands-on experience in full-stack development using JavaScript, React.js, Node.js, and Express.js. Experienced in developing REST APIs, integrating databases, debugging applications, and building maintainable software solutions. Strong foundation in Data Structures, Algorithms, OOP, DBMS, and Operating Systems, with 500+ coding problems solved. Familiar with Docker, Kubernetes, Jenkins, AWS, and CI/CD.

Education

Chitkara University — Chandigarh, India
Bachelor of Engineering in Computer Science Engineering; CGPA: 8.69 — 2022 – 2026

GD DAV Public School — Jharkhand, India
Class XII; 73% — 2020 – 2022

GD DAV Public School — Jharkhand, India
Class X; 80% — 2019 – 2020

Experience

OctaNet Pvt. Ltd. — Feb 2024 – May 2024
Full Stack Development Intern

- Developed responsive and reusable frontend components using **React.js**, enabling dynamic data rendering and consistent user interfaces.
- Integrated frontend applications with backend **REST APIs** using Axios, handling asynchronous requests, API responses, and error scenarios.
- Implemented reusable UI components and managed application data flow to improve code maintainability and application usability.
- Worked with **JavaScript, React.js, HTML, CSS, REST APIs, and Git** in a team-based development environment.

Projects

TalentIQ – Real-Time Interview Platform — MERN Stack — GitHub

- Developed a full-stack **MERN-based application** supporting real-time video interviews, chat, and collaborative coding.
- Built backend **REST APIs** using Node.js, Express.js, and MongoDB/Mongoose for application functionality and data management.
- Integrated **Clerk, Stream Video, Stream Chat, Monaco Editor, and Judge0 API** for authentication, communication, collaborative coding, and code execution.
- Deployed frontend and backend services using **Vercel and Railway**.

Forever-Ecom – Full-Stack E-commerce Platform — MERN Stack — GitHub

- Developed a full-stack e-commerce application with separate customer-facing frontend, backend, and admin panel.
- Implemented product browsing, shopping cart, user authentication, and order management functionalities.
- Built backend **REST APIs** using Node.js and Express.js, with MongoDB/Mongoose for database operations.
- Developed responsive user interfaces and integrated frontend components with backend APIs.

CloudNotes – Docker, Jenkins, Kubernetes & AWS — GitHub

- Created a **Dockerfile** to containerize an existing Django application and configure its dependencies and runtime environment.
- Built a **Jenkins CI/CD pipeline** to automate Docker image building and application deployment workflows.
- Deployed the application on **Kubernetes and AWS EC2** using Deployments, Services, and Ingress.

Technical Skills

Programming Languages: Java, C++, JavaScript, SQL, Bash
Frontend: React.js, HTML, CSS, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks
DevOps & Cloud: Docker, Kubernetes, Jenkins, AWS, Linux, CI/CD
Tools & Monitoring: Git, GitHub, Postman, Prometheus, Grafana

Achievements & Certifications

- Solved **500+ DSA problems** across LeetCode, GeeksforGeeks, and CodeChef.
- Completed **Applied DevOps Engineering, Linux Commands & Shell Scripting (IBM), and Linux & SQL (Google)** certifications through Coursera.
